# WHAT WE OBSERVED AT

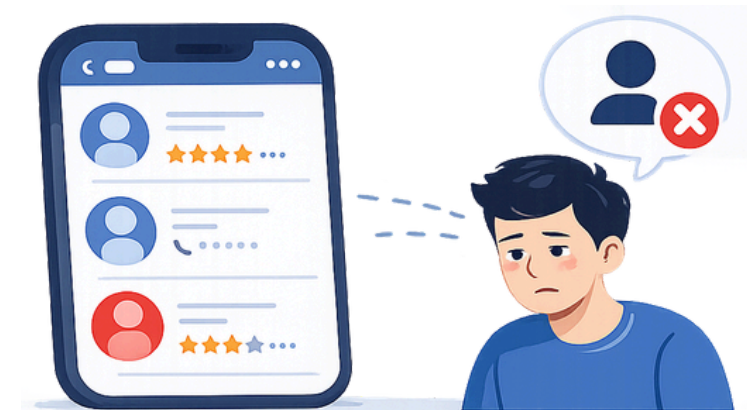

## ALLIED SCHOOL B-17

- ✗ Admission inquiries are scattered across multiple channels, with no central tracking system.

- ✗ Delayed responses result in lost admissions and missed opportunities.

- ✗ Lack of structured follow-ups causes interested families to disengage.

- ✗ Inconsistent social media engagement weakens admission outreach and parent interaction.

- ✗ Inquiry handling depends on individual staff members, increasing the risk of missed leads.

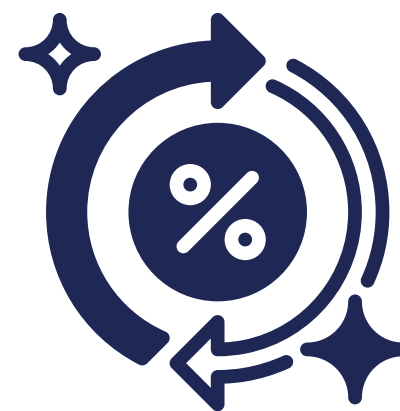

- ✗ Parent feedback highlights communication and operational gaps that impact overall perception.

# THE FINANCIAL COST

**Monthly Inquiries: 80–100**

**Current Conversion Rate:  
30–40%**

**Lost Families: 50–60 per month**

**Average Annual Fee: Rs. 50,000**

**Estimated Annual Revenue Loss: Rs. 2.5M – 3M**

By recovering only 30–50% of missed opportunities, Allied School can generate an additional Rs. 750,000 – 1.5M annually from existing inquiry volume.

# SOLUTION (GROWTH PACKAGE)

## WHAT WE WILL BUILD IN 14 DAYS

1

### Centralized Inquiry Tracker

Google Sheet with inquiry database, dashboard, follow-up reminders and reporting tabs.

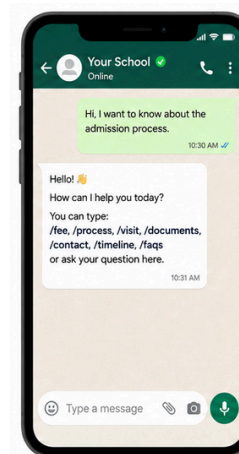

✓ Complete visibility of every inquiry.

2

### WhatsApp Quick Replies

7 ready-to-use templates: /fee, /process, /visit, /documents, /contact, /timeline, /faqs.

✓ Faster and more professional responses.

3

### Structured Follow-Up Workflow

Automated follow-up sequence from Day 0 to Day 14.

✓ Converts more "let me think" parents into admissions.

4

### Staff Training

Two live training sessions covering system usage, response handling and go-live readiness.

✓ Team independence from day one.

5

### Broadcast Lists

Separate lists for prospects, current parents and waitlist families with pre-written templates

✓ Consistent communication at scale.

6

### Weekly Performance Reports

Four weekly reports covering inquiries, response time, admissions and conversion performance.

✓ Data-driven decision making.

7

#### Follow-Up Optimization

Performance review after Week 2 to improve messages, timing and conversion rates.

✓ Continuous improvement.
